

Mandela Day in Switzerland, 18th of July 2018

For the first time, Switzerland has been actively contributing to the Mandela Day this year. 7 employees were selling ice cream for the good cause in the city of Zug, close to the office in Switzerland, on a perfect summer day.

Every cent is donated to «KinderSpitex», a nursing service who supports ill children and their families when they need it the most, so they can stay at home instead of being in a hospital.

A very successful day with happy people all over! Thank you Aspen for making this happen all over the world.
